

STRENGTHENING OF THE INTERNATIONALIZATION OF EUROPEAN AND LATIONAMERICAN UNIVERSITIES

Bimonthly Internal Report - September / October '19

During the month of September 2019, the FORINT program was represented by Dr. C. Mabelín Armenteros Amaya (Agrarian University of Havana), Dr. C. David Almaguer la Rosa (University of Holguin) and Dr. C. Marcela Cecivel Ortega González (University of Panama) at the EAIE Annual Conference in Helsinki. This presentation did not have any type of execution problems, however, made the dissemination activities of the project both in these universities and in the rest of the actors of the program null as efforts were focused on the representation in said conference.

Likewise, during this period, not only was the last Coordination meeting held at the University of Panama on October 9 but also the Final Project Conference that took place on October 10 and 11. This Conference was held successfully and the Project Book was distributed therein. Due to Cuban short-term problems, this book finally had to be published in Panama and not in Cuba as originally was planned.

As a general summary we can say that all the actions that have been carried out within the FORINT program have been executed without problems and the few problems that have arisen have been resolved in a positive way, without endangering at any time or the planned activities nor the final result of it.
